

## 9/11: a political Rorschach test

Most perspectives about 9/11 contain pieces of truth but do not have the whole story.

The official story that there are Muslims who want to attack the US has some truth but ignores how that anger is a reaction to US intervention in the Middle East. The 9/11 Commission falsely claimed the feds were too incompetent to “connect the dots” and a surveillance society is needed to prevent a repeat attack.

Many liberal progressives highlight “blowback” — the attackers were motivated by revenge for US policies. But blowback alone does not explain how the attacks were allowed to happen. US allies provided specific warnings: who, what, where and when. FBI agents who tried to stop the attacks were blocked by headquarters, which was obstruction, not incompetence.

The 9/11 half truth movement correctly says there was a deliberate conspiracy but their most popular claims contain discrediting disinformation. There are conspiracies to create fake claims of conspiracy to discredit looking at actual conspiracies. Ridicule is an effective tool to ensure most people won't look closely.

The media correctly state that Flight 77 hit the Pentagon, thermite isn't used to demolish buildings and the firefighters watched the twin towers and Building 7 buckle before they fell down. They ignore failure to follow standard procedures and suppressed warnings.

Neither the media nor some of the conspiracy crowd highlight the CIA's “plane into building” exercise and the NORAD war games that morning — the real failure to connect the dots.

## Crossing the Rubicon:

### Simplifying the case against Dick Cheney

by Michael Kane

### Means: Dick Cheney and the Secret Service

Dick Cheney was running a completely separate chain of Command & Control via the Secret Service, assuring the paralysis of Air Force response on 9/11.

The Secret Service has the technology to see the same radar screens the FAA sees in real time. They also have the legal authority and technological capability to take supreme command in cases of national emergency.

Dick Cheney was the acting Commander in Chief on 9/11.

### Motive: Peak Oil

At some point between 2000 and 2007, world oil production reaches its peak; from that point on, every barrel of oil is going to be harder to find, more expensive to recover, and more valuable to those who recover and control it. Dick Cheney was well aware of the coming Peak Oil crisis at least as early as 1999, and 9/11 provided the pretext for the series of energy wars that Cheney stated, “will not end in our lifetime.”

### Opportunity: 9/11 War Games

The Air Force was running multiple war games on the morning of 9/11 simulating hijackings over the continental United States that included (at least) one “live-fly” exercise as well as simulations that placed “false blips” on FAA radar screens. These war games eerily mirrored the real events of 9/11 to the point of the Air Force running drills involving hijacked aircraft as the 9/11 plot actually unfolded. The war games & terror drills played a critical role in ensuring no Air Force fighter jocks — who had trained their entire lives for this moment — would be able to prevent the attacks from succeeding. These exercises were under Dick Cheney's management.

## 9 1 1 disinformation

hoax	target audience
no plane hit Pentagon the first 9/11 hoax	political & military elites inside the Beltway
no phone calls	9/11 family members
controlled demolition	academia, technical professionals
Holocaust denial “the Jews did 9/11”	New Yorkers peace movements
no Arabs involved	foreign allies, police & intel investigators
Peak Oil denial	block understanding Peak Oil – 9/11 motive
no planes anywhere	everyone and no one

9/11 research is a rabbit-hole of Byzantine complexity full of snares and delusions and peopled with false friends, lunatics, earnest lost souls and a few heroes. It's not necessary to understand all the nuances of science and bureaucracy that allowed the government to get away with mass murder, blame it on swarthy foreigners (of whom many are eager accomplices) and use the incident as (in the words of the Cheney, Jeb Bush et al cabal, the Project for a New American Century) “a new Pearl Harbor.” At this critical juncture in human history, it's only necessary to understand why they did it. The motive was Peak Oil, a disaster which will affect everyone on the planet, about which all must enlighten themselves and for which all must prepare.
